

Quaderno di supporto alla Comunicazione

ITALIANO

Cosa è:

Il quaderno, diviso per categorie, intende essere un supporto alla **comunicazione** sia in **entrata** che in **uscita**. Ha una struttura in italiano a cui si può aggiungere, se necessario, la traduzione in altra lingua.

Per chi:

La vasta gamma di vocaboli permetterà di personalizzare quanto necessario alle diverse situazioni della vita.

Nato, come idea iniziale, per essere di aiuto in situazioni di accoglienza di persone straniere si presta ad innumerevoli utilizzi:

- nelle scuole per la didattica ad alunni senza competenza in lingua italiana, nei centri di primo soccorso, negli ambulatori, nei centri educativi, nelle biblioteche
- nell'interazione sociale e comunicativa con persone con disabilità, sulla base del personale progetto comunicativo specialistico

Il quaderno potrà essere utilizzato nelle scuole sia per la comunicazione nelle prime fasi di alfabetizzazione, sia per l'ampliamento del lessico, sia per attività di supporto all'apprendimento della letto-scrittura.

Le tavole che costituiscono questo quaderno, liberamente modificabili, potranno servire per costruire libri di comunicazione personalizzati, sulla base delle necessità di ciascuno.
